Dental Card.

I wish to say a word to the Gentlemen and Ladies of Bangor and vicinity, as persons you would do more for your children than for themselves. A gentleman in Bangor, who is fifty years old, was in my office in April and told me he would give me one hundred dollars if I would save one tooth in his mouth. I did so, and he was satisfied. If a man will pay that for one tooth, what should he do for his children.

Now if you cannot save your own, you can save the teeth of your children. Almost every day some father or mother will come to my office with their child to have me extract the decaying teeth. I examine the mouth and find that the painful teeth are not temporary but a permanent one. The parent is surprised; you are wrong, she has never had any in her mouth there, she will tell you have a permanent tooth when this one is out of the way.

A very large proportion of our patrons, have never known, or have forgotten, that in our first set we have but twenty teeth. And that all teeth grow back of the twenty are permanent ones, thirty-two in all. I have extracted within the past year, seven hundred teeth for one little girl who was not eleven years old. Will you parents suffer your children to suffer for their life time by your neglect? If by neglect you have lost your natural teeth, a good rubber will not show where to go for the best artificial ones. Hundreds of people in Bangor and vicinity will endorse by their own experience all that he has told in his paper.

DR. J. K. LEWIS.—Though we have not the pleasure of a personal acquaintance with the gentleman, yet we have reason to believe that he is a respectable practitioner of the dental art. At least, he has made one old face in our house look young again, and has fitted, by art, a pair of jaws to masticate the food again, which claims nature thought to deprive of this privilege a little too soon. We think the work and composition of the two full sets of teeth he has inserted cannot be excelled anywhere.—*Rural Intelligencer.*

My price now is $20 for a whole set of the best artificial teeth; $10 for a half set.

ADDRESS

TO THE

Nervous and Debilitated,

Whose sufferings have been protracted from hidden causes, and whose case require prompt treatment to render existence desirable: If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your urine, or urinary organs, or your Kidneys, frequently get out of order? Is your urine sometimes thick, milky or ropy, or is it ropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing, or dyspepsia? Are your bowels constipated? Do you have spells of fainting, rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, morning, fond of company, of life? Do you wish to be left alone, to rest away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little spirit, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured and sexual excesses, are all capable of producing weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think of these bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart.

How many men, from the effects of excesses, have brought about that state of weakness in Sexual Organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and available remedies for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility and all diseases of the Sexual Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness and that of posterity, depends upon prompt use of a reliable remedy.

HELMBOLD'S

Fluid Extract Sarsaparilla,

The Great Blood Purifier and Beautifier of the Complexion

HELMBOLD'S

EXTRACT SARSAPARILLA

WILL RADICALLY EXTERMINATE FROM THE SYSTEM SCROFULA, SYPHILIS, FEVER SORES, ULCERS, SORE EYES, SORE LEGS, SORE MOUTH, SORE HEAD, ERYSIPELAS, ECZEMA, ITCH, SCALD HEAD, RINGWORM, TETTER, SALT RHEUM, CANKERS, RUNNINGS FROM THE EAR, WHITE SWELLINGS, TUMORS, CANCEROUS AFFECTIONS, NODES, BLOTCHES, GLANDULAR SWELLINGS, NIGHT SWEATS, RASH, TETTER HUMORS OF ALL KINDS, CHRONIC RHEUMATISM, DYSPEPSIA, AND ALL DISEASES THAT HAVE BEEN ESTABLISHED IN THE SYSTEM FOR YEARS.

Being prepared expressly for the above complaints, its Blood-Purifying properties are greater than any other preparation of Sarsaparilla. It gives the complexion a clear and healthy color, and restores the patient to a state of health and purity. For purifying the blood, removing all chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Pains and Swellings of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Erysipelas, and all Scaly Eruptions of the Skin, in Beautifying the Complexion,

FRENCH

FIRE-PROOF

FLAMP CHIMNEYS,

These chimneys, which are now for the first time offered to the public, possess all the essentials of a heat resisting Chimney. They are well made, of a proper quality of glass, each one finished smoothly at the bottom, and being carefully annealed or toughened, will not break from the most intense heat of a lamp flame.

A trial of their merits will convince the consumer that, although costing a trifle more than the ordinary class of Chimneys in use, they will prove a source of much economy in the use of Kerosene, a saving of much trouble and annoyance, and a preventative of many accidents hitherto resulting from the breakage of Chimneys upon burning Lamps.

A Safe & Profitable INVESTMENT.

First Mortgage Bonds,

To a limited amount, upon a railroad which is well located for business, and which has been already largely constructed with the funds of its Stockholders, cannot be otherwise than safe. This security is increased if the Constructing Company is composed of men of high character, and of ample means for successfully carrying through any work they undertake.

THE

TEXAS & NEW ORLEANS RAILROAD COMPANY

Offer for sale a bond which combines these advantages to an unusual degree. The route lies between Mobile, Alabama, and Houston, Texas—passing through New Orleans, the New York of the South. Of the whole line of 475 miles, about two-thirds are already built, and the Stockholders have expended nearly TEN MILLION DOLLARS in the work. The bonds now offered are secured by a mortgage upon all that part of the line west of New Orleans, which has an enormous traffic assured to it from the start, this being the only rail connection by which the cotton, corn, cattle and other productions of Texas can reach New Orleans.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of second mortgage bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The First Mortgage

Eight Per cent. Bonds

Now offered, are limited in amount to $1,500 per mile, and are for $1,000 or $200 each; interest payable January and July, at the rate of 8 per cent. Currency or 7 per cent. Gold, at the option of the holder. Bonds registered if desired.

Among the leading Stockholders of the Company are Hon. E. D. Morgan, Ex-Governor and Ex-U. S. Senator; Hon. John A. Griswold, Ex-Lieutenant-Governor, Troy, N. Y.; Hon. Oakes Ames, M. C., Massachusetts; Messrs. Morton Dexter & Co., L. Von Hoffman & Co., J. & W. Seligman & Co., Harrison Durkee, and others, of New York; Benjamin E. Bates, President Bank of Commerce, Franklin Havens, President Merchants' Bank, Boston, and others, also well known.

The above statement of facts proves the SAFETY of these Bonds. The PROFIT is clearly manifest upon examination. They are sold for the present at 90, and accrued interest from July 1st. At this price they afford a certain income for forty-five years, of nearly nine per cent upon their cost. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seven per cent.* per cent. greater annual interest than the same amount invested in the new Government five per Cents, while holders of Government Sixes will realize a doubled profit, in selling them at present high prices, and reinvesting in the New Orleans Mobile and Texas Bonds.

Subscriptions will be received in Bangor by

P. M. BLAKE, Banker,

and in Bucksport by

EDWARD SWAZEY,

At Bucksport National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Sherry Wine Bitters.

THE BEST MEDICINE IN THE WORLD.

Diploma awarded by the Mass. Charitable Mechanic Association, A. D. 1868.

Composed of Dock Root, Sarsaparilla, Rock Rose, Wintergreen, Dandelion, Wild Cherry, Thoroughwort, Prickly Ash, Poplar Bark, Rhubarb, etc. For Weakness, Loss of Appetite, Jaundice, Headache, Sour Stomach, Piles of long standing, Humors, and *all Diseases which arise from an unhealthy state of the Stomach, Bowels, and Blood* for which valuable Roots and Herbs, and the knowledge of their great service to suffering humanity, man cannot feel too thankful to Him who wisely provided us with all things.

TO ALL PERSONS,

NOT SICK AND WELL.

If a Long Life of Health and Happiness is desired, let these Bitters be taken, particularly in the *Spring and Warm Seasons* of the year, and especially by the following classes of people:—

The SEDENTARY, who, from the constant indoor labors, are having sufficient access to the bracing and refreshing air out of doors, become weak and at the stomach, nervous, pale and sickly, like fed upon rubbing, not properly digesting. He should take these Bitters, and freely too, in order to get a sound up, tight and strong, and in prime condition to go through the warm weather in good shape, with the constant daily labors. The exhilarating and strengthening powers of the Dock Root, Dandelion, Poplar, and Prickly Ash Bark, is what will bring him up, and make him physically spunky once more and *stay there.* The MILL OPERATIVE will find this Medicine the very thing to cleanse the blood and strengthen the system, and *very pleasant to take.* The PALE AND ONCE BEAUTIFUL LADY has but to take this compound freely, and she will be quickly restored to health, beauty and buoyancy. The HONEST FARMER, the CLERGYMAN and LAWYER, MEN OF SEDENTARY HABITS—find in your Medicine. After once using it, you will never be without it. It will improve your country per cent. The MARINER will find it the best medicine in the world for his use; it will cure him, while at sea, hearty and tough, and when on shore it renovates his blood, and restores and repairs its system.

The Largest Bottle, the Lowest Price, and the Most Effectual Remedy in the World.

Diploma awarded by the Massachusetts Charitable Mechanic Association.

STATE NEWS.

The Colorado potato bug has appeared in Gardiner, in this State.

The Gardiner Journal says that Miles Standish of Dead River, Flagg Stream, cut eighty tons of hay on forty acres of land this year. How is that for drouth?

Edwin A. Daniels of Paris, graduated at Dartmouth this week. Benjamin W. Andrews and Shepley W. Evans of Fryeburg, graduated from the scientific department.

The Lewiston Journal says a farmer in Readfield, collects a bushel of grasshoppers daily for his hogs. Scalded they make an excellent soup that the swine swallow with a relish.

The hay crop is very light in Oxford county, many farmers who cut on an average, in years past, from 25 to 30 tons, will not this year cut eight. The grasshoppers are making fearful ravages.

The Press says that Mr. Hennessed, a machinist employed by the Portland Company, turned his vacation to good account. He took his wife and two children and camped out, and while in camp, the family picked and sold on the ground $47 worth of huck

STORMING THE DEMOCRATIC CITADEL.

Some of our readers may think that we overestimate the importance to this community of the events which are now transpiring on a distant city, and many may inquire: "What's Tammany to us, or we to Tammany?" In the first place, events which so vitally concern the honor and safety of the metropolitan and commercial centre of the country, must necessarily be of interest to all sections. And when, as in the present instance, the crimes and corruptions which are receiving a merciful exposure, are those of a powerful ruling corporation who dictate the policy and some of the great political parties of the country, the war which is being waged upon them is one which has a commanding interest for every good citizen, and the hands of those who are fighting the battle should be strengthened by the moral support of the honest men of the whole country. The national campaign which is close upon us, is to decide whether the control of the government shall remain in the hands of the Republican party, whose record is spread plainly before the people, or to be entrusted to the Democratic party, which is led by the Tammany ring and whose record has boastingly pointed to the municipal administration of New York as the model to be followed in conducting the affairs of the nation. It is useless for the more discreet members of that party to urge that the party is not responsible for the corruptions of a clique, for Tammany has been recognized and indorsed by every section of Democracy, its controlling influence has been repeatedly demonstrated, and North and South, from the Richmond Whig to the Boston Post, it has been hailed as the great central and directing power of the Democratic party. Swamped by the purchased favor of the most villainous rabble on the continent, it has boldly debauched the ballot in New York State and city, and has sent its repeaters and its strikers and its funds to aid in falsifying elections wherever there has been an important contest. Its power has been built upon robbery and fraud, and, by enlisting all the rascals in its pay, and securing the endorsement of respectable Democracy, it is a tribute to its prowess, the few illiterate but unscrupulous political rowdies have entrenched themselves in a position of despotic power in the principal State of the Union, and of practical dictatorship in the Democratic party.

It is well known that in the next national convention, unless these men shall sooner come to grief, the Tammany ring will be all-powerful. Whether it will dictate Hoffman as the Democratic candidate or accept a pledge for the control of the Treasury, will depend upon political considerations; but that it will secure one or the other is thoroughly understood. What the people of this country have to expect in either case, should the Democrats by any possible rascality carry the election, the history of Tammany in New York most distinctly foreshadows. Owing everything to the influence of the dangerous classes, it has recently disgraced the name of civilization by truckling to the open threats of the mob, and while the bloody stains of the riot which it encouraged are yet visible on the pavements of the city, the ring has been called to account for the most gigantic robberies ever perpetrated in this or any other country.

It is astounding to find that the people of any community have permitted such vulgar rascals as Tweed and his confederates, to so fortify themselves with public plunder as to bid defiance to all law, to control Governor, Legislature and Judiciary and actually to threaten the safety of a great nation. The facts and figures thrust before the people by the N. Y. Times should arouse a frenzy of indignation and alarm, and there are indications that that metropolitan indifference is giving place to a startled public sentiment which will bring rascality to book. The charges preferred by the Times have not been disputed in a single figure by the special pleading of Mayor Hall, who acts as the counsel for the ring, and his attempt to muddle the issue by accusing the Times of quite as utterly inconsequential and useless. The public care nothing for motives which facts are presented on their merits, and because the Times compelled the city to pay a just debt for services performed, Mayor Hall is not excused for assisting in the wholesale robbery of the city treasury. Neither the Mayor nor the World can find any stronger plea than that, these monstrous frauds were allowed by a former board, thus asserting the strange doctrine that the Mayor was bound to endorse payments which he admits were "exorbitant", and which he knew were outrageously fraudulent. The World says "It has always been the opinion of the World that the old city government was indefensible, and we congratulate ourselves that our attacks and exposures contributed to its overthrow." And this in the face of the facts that the same men who controlled the old regime, control the new; that the present leaders of the ring are the same men who were denounced two years ago by the World as thieves who had their arms up to the shoulder deep in the city's purse, transferring the contents to their own pockets—as men who had robbed the public so effectually and so swiftly that they rose from penury to affluence within a year—as men who could boast of having stables that were more gorgeous than most of the houses on Fifth avenue.

The very poverty of the defence set up shows the panic into which the swindlers have been thrown by their exposure and we hope the Times will continue to lay on its blows lustily and right earnest. We regret that the attitude of the city press should seem to have justified the complaint of the Times that it has not been heartily supported. No rivalry should interfere in this matter; the reputable journals should push the facts home to the ring, no matter who struck the first blow. The Standard, however, has lately reinforced the Times, the Tribune and Post are evincing more consciousness of the importance of the fight, and we hope soon to see at least the whole Republican press of the country united in the effort to break up that corrupt and dangerous combination. Honest Democrats should aid in this exposure of villany, but we anticipate little help, except perhaps from some pecuniary sufferers in New York city and State. The war on Tammany is a battle of the people against organized scoundrelism, and public opinion should applaud and sustain the darkest that has been implacable to deal out, and the heavy blows of the appropriate symbol of corruption. The political hangers

THE ALASKA SEAL TRADE. San Francisco advices state that the government income from the Alaska seal island duty will be greatly curtailed from the fact that no seal oil is being saved. The contract binds the lessees to pay the government 62½ cents per gallon for all oil taken, but does not bind them to take any, and as the oil is worth only 37½ cts. in San Francisco, none is taken. The seal carcasses are being allowed to rot after the pelt is stripped off.

THE LATEST RAILROAD MURDER. The accident on the Toledo, Wabash & Western Railroad, Thursday night, was caused by the conductor and engineer of the freight train, who, on their arrival at Edwardsville, Ill., were instructed to remain until six o'clock, or until the arrival of the construction train; instead of which they left at 5:35 and a collision was the result. Six men were killed and two more have since died of their wounds.—The Coroner's jury have returned a verdict criminating the conductor and engineer, both of whom fled immediately after the accident, fearing violence at the hands of the laborers, who threatened to lynch them.

EARLY SLEIGHING. Very destructive hailstorms are reported last week in Sullivan county, N. Y., and Wayne and Pike counties, Pa. Some portions of those counties were covered over an inch deep with hailstones and the growing crops almost entirely destroyed. Essex county, N. J., also suffered severely, and sleighrides are reported after the storm.

WALKER'S

IMPROVED

PORTABLE RANGE.

THE NEW RANGE excels anything of the kind ever offered for sale. It requires much less space than ordinary cooking stoves, and is more economical. It will heat as much water as a range set in masonry.

THE HOT CLOSET raises the heat usually radiated from the bottom, which is during the summer months WORSE THAN WASTED, thereby not only SAVING FUEL, but making the KITCHEN MORE COMFORTABLE, besides furnishing an admirable place for warming and keeping food warm, warming plates, &c. The door can be removed during cold weather to allow the heat to escape into the kitchen.

Ashes are separated from the ashes in the SIFTING CHAMBER.

THE FOLDING SHELF, together with other improvements referred to, make it at least two stoves in one. We claim for it, viz: THE MOST DESIRABLE COOKING APPARATUS TO BE FOUND ANYWHERE.

NEW SWEDEN *Mr Editor*—Just one year ago to-day, (July 23d) the first company of immigrants from Sweden arrived here to form a colony. To-day, 81 more, (50 adults and 31 children) arrived via Halifax, being four weeks on the way Eighty more are expected this week. The road to Caribou is still in very bad condition on account of the wet weather, and the road building progresses slowly for the same reason. Rain has fallen every day for a week past, and as I write we are in the midst of a hard storm Messrs Johnson (of Presque Isle,) and Hard (a Swede) have a store nearly completed near the Capital" The woods are full of Swedes looking for jobs. One man got belated last night and unwillingly camped out in the forest, not finding his way out until morning Potatoes and rye are looking nicely, but winter wheat shows symptoms of rust. Hay in this vicinity promises a full crop, although it will be rather late.

BANGOR TROTTING PARK.—*July Meeting*—The attendance at the Bangor Park to witness the races yesterday afternoon was quite large but still not so large as to make the gate money of much profit. The first race was for horses that never beat three minutes Nine horses were entered, but New Hampshire Boy, Wm Tell, Charley, and Prince were withdrawn, leaving the contest to Honesty, Shoo Fly, Dr. Josslyn, St Lawrence, and Maxy—The struggle for the lead between Honesty, well known to many of our city readers as the gray horse that was champion of the Hampden road last winter, and the bay gelding Shoo Fly, was quite exciting during the first two heats, but the latter won as will be seen by the following

BANGOR HOUSE, July 27th

Mr Editor—At 10 45 this evening, while crossing Central Bridge, I was attacked by one of three men, who caught me by the shoulder I wrenched myself away, hurried to the other side of the street and called "Police," but there was no response. I went to the Police Office and found no one there To my surprise, this part of Bangor town had no protection Fortunately for the cowardly wretch who attacked me I had no pistol, but next time I am in Bangor I shall have protection.

Yours respectfully,

CONSUMPTION.

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputable proved means of cure These near and dear to family and friends are sleeping the dreamless slumber into which had they calmly adopted

DR JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen

Dr Schenck has in his own case proven that where ever sufficient vitality remains that vitality by his medicines and his directions for their use, is quickened into healthful vigor

In this statement there is nothing presumptuous To the faith of the invalid it made no requisition on that is not a thousand times substantiated by living and visible works The theory of the cure by Dr Schenck's medicines is as simple as it is unfailing Its philosophy requires no argument It is self-assuring, self-convincing

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia, and a functionally disordered liver. With this condition the bronchial tubes sympathize with the stomach They respond to the reciprocal action of the liver Here then comes the culminating results and the searing in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest alts—the Leopphyllum Petatum They possess all the blood searching alterative proper ties of calomel but unlike calomel they

"LEAVE NO STING BEHIND."

The work of cure is now beginning The vitiated and diseased deposits in the bronchi and in the alimentary canal are excited The liver like a clock is wound up its functions from its torpidity The stomach acts responsibly and the appetite begins to feel that he is getting at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills permeates and assimilates with the food Digestion is now progressing without its previous distress. Digestion becomes painless, and the cure is seen to be at hand There is no more hesitancy no cause fraction of the stomach An appetite sets in

Now comes the greatest blood Purifier ever yet given by an indigent sufferer to suffering man Schenck's Pulmonic

IN TWO LIKE TREES

BY THE AUTHOR OF "JOHN HALIFAX."

One—stretches out under my window
Its arms to the sunshine bright;
Year by year taller, stronger,
More vocal with green delight.
Its neighbor—a church door
Stage to us that at times,
Whether rain or sunshine, constantly
Bears its sorrowful burden.

All night long through its branches
Sighing, moaning murmurs creep,
And I think, "Now the other whispers
As softly she lies in the coffin."

My voice is alive with thousand
Joyous blossoms leaves,
Yet—that the other is dropping
Many blossoms over the grave.

Thus the fate and future
Of two lives,
Thus one as a garden glory,
Thus the other a church yard tree,
But each will praise God, free-fashion,
As are the creatures will.
And I? I shall praise God
With my dead—of a living soul.
